ABOUT SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

SRM Institute of Science and Technology (formerly known as SRM University) is one of the top ranked Universities in India, offering a wide range of Undergraduate, Postgraduate and Doctoral Programs in Engineering, Medicine & Health Sciences, Management, Science & Humanities, Law, and Agricultural Sciences. SRMIST is accredited by NAAC with the highest Grade of 'A++'. The UGC and MoE, Department of Higher Education, Government of India, granted a graded autonomy status to SRMIST by classifying it as category-I University. SRMIST secured 4th position among private Institutions across our country under ARIIA-2021. QS, the world-renowned international ranking agency, has rated SRMIST as a "4 Star" institute with "5 Star" ratings in Teaching, Employability, Inclusiveness and Online Teaching. SRMIST has been ranked 11th nationally under Universities Category by NIRF (National Institutional Ranking Framework) in 2025.

ABOUT THE DEPARTMENT

The Department of Electronics & Instrumentation Engineering was started in the year 2007-08. The department offers two Undergraduate programs such as B.Tech in Electronics and Instrumentation Engineering, B.Tech in Automation and Robotics and two Postgraduate programs such as M.Tech in Electronics and Control Engineering, M.Tech in Automation and Robotics. The scope of these programs is vast and rapidly expanding to meet the needs of manufacturing and process industries. Our department faculties and students have filed 100+ patents of which 75 have been granted and 96 have been published. The Department has received a total funding of

Rs. 2 crores from agencies like DST, SERB, SPARC, NewGen IEDC etc. The Department is accredited by IET and has been recognized by IASC - Sector Skill Council - Affiliated to Ministry of Skill Development and Entrepreneurship, Govt. of India in 2018 and has established Center of Excellence in Factory automation in collaboration with Mitsubishi Electric India Pvt. Ltd. and Center of Excellence in HMI in collaboration with Schneider Electric India Pvt. Ltd.

ABOUT THE WORKSHOP

This workshop aims to bridge the gap between academic learning and industrial practice by providing hands-on exposure to modern automation technologies used in real-world industrial environments.

Participants will gain practical insights into PLC programming, SCADA system integration, HMI design, and variable frequency drive (VFD) applications through expert-led sessions.

The program is designed to enhance technical competency, system-level understanding, and industry readiness among students, researchers, and professionals.

TOPICS TO BE COVERED

PLC: Introduction to Automation, micro controller vs PLC, Introduction to PLC hardware and software, programming language, basic instructions, Practice of programs in Codesys software, MITSUBISHI PLC, Project development.

HMI: Introduction to HMI, interface with PLC, screen development, digital & analog data configuration, analog data scaling, password

level, screen display & Industrial project development.

SCADA: Introduction to SCADA, interfacing with PLC, screen development, digital & analog data configuration, analog data scaling, driver selection and configuration, tag creation and configuration & Industrial project development.

VFD: Introduction to AC Drive, parameter setting, speed, direction, acceleration and deceleration time control of induction motor, interfacing with PLC, multispeed & multidirectional control project.

RESOURCE PERSON:

Mr. Himanshu Kumar, Director, INDWELL Automation

TARGET PARTICIPANTS

- UG, PG students & Research scholars pursuing research / project work in this field
- Faculty members of Engg. Colleges/ Universities
- Restricted to max. of 30 participants on first-come-first-serve basis
